Preparation:

Sand & Seal Cake Stand. Apply a thin coat of texture paste with a bristle brush, using a criss-cross application; or apply your base coats with a roller brush for an eggshell finish. This will make your dry brushing easier.

Base the center of the pedestal and the top & edge of the Cake Stand with Black Plum; do not sand between coats! Trim Pedestal Rings with Light Cinnamon & Sapphire Blue/Hauser Light Green, as desired.

Apply the pattern using light graphite & applying all the lines on the Angel and Bird.

Base in the Rose Circles with a mix of Antique Rose + Titanium White, (2:1). When dry, apply the pattern on your Roses.
